

**STROMBERG CARLSON
PRODUCTS INC.**

Model: LA-500 RV Roof Rack

INSTALLATION INSTRUCTIONS

Assemble rack as shown in diagram. The width can be reduced from 90" by trimming the non-swaged ends of the rear tube -- as noted in diagram. Tighten set screws once brackets are properly located.

Mount on RV roof using wood screws provided. Be sure to caulk all holes drilled into the RV roof (caulk not provided).

Carton Contents:

- (7) Brackets
- (14) Set screws
- (29) Wood Screws
- (2) Side tubes with flare, w/roof bracket
- (2) Rear Tubes bend and swaged
