

BLUE OX[®] GOOSENECK

With the Quick Flip Ball

Full access to your truck bed without reaching in here to operate a lever or pull a release pin.

Twist.

Rotate the collar.

Pull.

Pull out the hitch ball.

Flip.

Invert to store.

“It’s a fool-proof hitch. The difference between Blue Ox and other brands is the collar: twist the collar and pull out the hitch ball. No release handle or pin to pull. To stow the ball, just drop it into the collar.

The ease of use, the functionality, and the overall friendliness of the hitch makes this a hitch worth having.”

— Dan Howard, Toys for Trucks, Oshkosh, Wisconsin

- No handle, no release pin
- Ball stays in place with a self-locking twist mechanism
- Ball drops directly into socket for storage
- Self-cleaning socket design keeps the ball from seizing in the socket
- 7,500 lb tongue capacity
- 30,000 lb gross capacity
