

Quick and Easy Installation

The compact (6.25" x 7" x 14.5"), lightweight (14 pounds), 120-volt CV1500 power unit is quick and easy to install in a space as small as 10" x 20" – perfect for installing under seats, inside closets or in storage compartments. Using the mounting brackets already attached to either side of the power unit, the CV1500 can be top or bottom mounted, and installed horizontally or vertically. The power unit and inlet valve can also be installed up to five feet apart using an optional Flex Connector Kit.
