

PRODUCT INFO

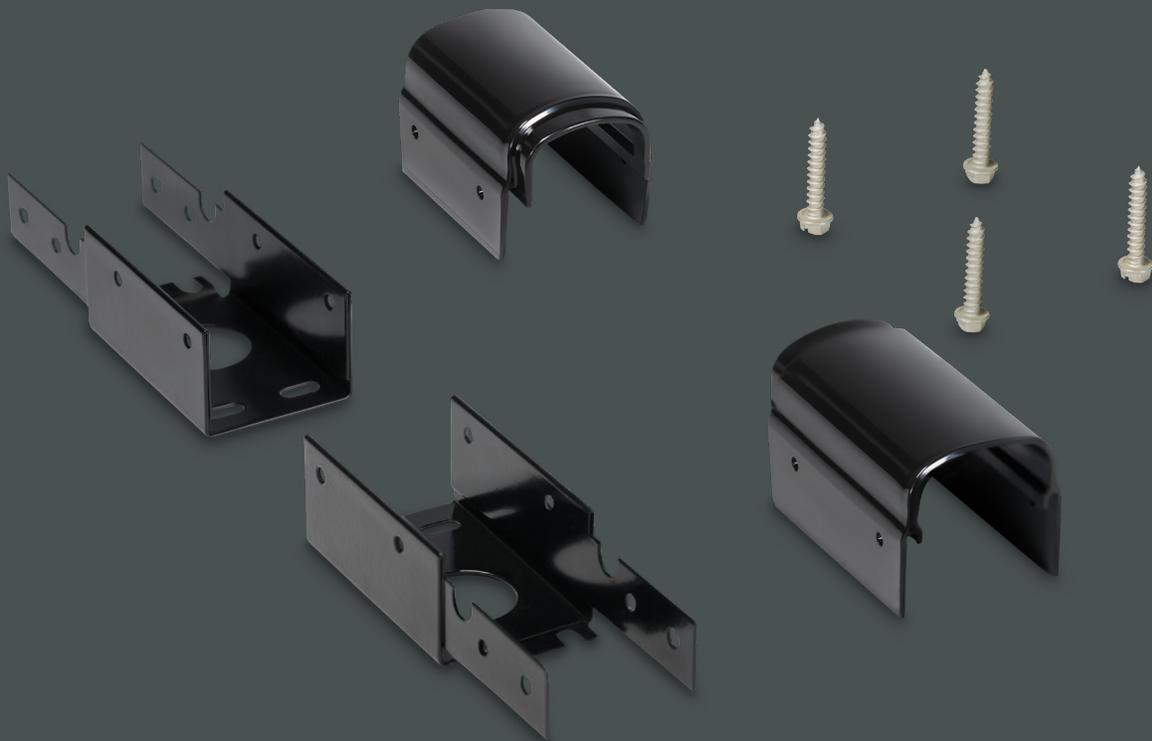

POWER AWNING EXTENSION KIT

When a problematic awning fails, it fails the customer. Their trip is delayed, and they aren't spending their precious time at camp, with loved ones. And when rigs end up in service bays for extended timeframes, because service managers are stuck searching for replacement awnings, everyone is frustrated with the situation. Dometic's Power Awning Extension Kit allows service managers to convert Lippert awnings to readily available, and more reliable Dometic awnings, without the concern of remaining sidewall holes.

PUBLICATION MODEL NAME

Dometic Power Awning Extension Kit

Benefits with Dometic's Power Awning Extension Kit:

- Allows for the use of reliable and readily available, high-quality Dometic awnings
- Maintain the integrity of the RV's sidewall
- Ship in exclusive protective tank packaging
- Less time in the service bay means more time at camp!

Refined Camping Experience: Replace a failed awning with a trusted Dometic awning, for many more years of comfortable campground relaxation.

Preserve A Polished Look: Cover the holes left in the sidewall from a previous brand, while maintaining the integrity of the RV's sidewall.

Make Set-Up A Breeze: Extend a Dometic awning more easily and faster than other brands, focusing on more relaxation at camp with loved ones.

Keep On Camping: Less time for awning repairs in the shop means more time in the great outdoors!

Lippert awning arms are longer than Dometic's. Direct replacement of a Lippert awning with Dometic's leaves a gap. The new product solves this problem by providing a decorative awning arm extension to cover the holes.
